FEATURES

Everything the group chat can't do

Trip HQ brings the whole trip together — plans, people and proof it happened.

Itinerary

One shared plan for every day, so nobody's scrolling for the address.

Polls

Settle the group debates in a tap, with results everyone can see.

Challenges

Point-scoring darts, photo evidence and a live leaderboard.

Crew

Who's coming, who's in charge of what, and who's still deciding.

Photos

One shared album for the trip instead of a dozen scattered chats.

Secret missions

Private missions only that person and the organisers can see.

Activities

Line up what you're doing and who's sorting it.

Updates

Announcements that reach the whole crew and don't get buried.

Forfeits

A fair fiddick the organisers can hand out when someone slips.

HOW IT WORKS

2

Personalise it

Cover photo, colours and icon that suit your trip.

3

Invite the crew

One link. No app store, no accounts to chase.

4

Organise together

Plans, jobs, polls and photos in one place.
